

**UF Oyster Recovery Team
and Seafood Management Assistance Resource and Recovery Team (SMARRT)**

Agenda for Information Sharing Meeting

December 6, 2012

Community Center, Apalachicola, FL

- 1 pm Welcome and purpose of meeting (Chris Millender, Karl Havens)
- 1:15 Update from the SMART initiative -- activities to date, upcoming activities and suggested approach for coordination with the Oyster Recover Team (Chris Millender)
- 1:35 Update on Healthy Gulf/Healthy Communities activities and upcoming events related to oyster issue (Angie Lindsey)
- 1:50 Update from researchers who have been collecting data and analyzing existing data to determine possible cause for oyster declines, locally and regionally. These folks will talk about what they have been doing, the objectives behind their work, any issues they have encountered with data quality, any results to date, and timeframe for having preliminary vs. more complete results (10 minutes each, 1:50-2:50 pm). These will be five concise round-table updates, and we will have time for open discussion at 3 pm.
- (a) Andy Kane (contaminants, pathogens)
 - (b) Bill Pine (water flow, salinity)
 - (c) Karl Havens (nutrient inputs)
 - (d) David Kimbro (food web, predation, oyster population dynamics)
 - (e) Ed Camp (fisheries modeling, management model development)
 - (f) Steve Otwell (update on joint Oyster/Seafood Safety project with FDACS)
- 2:50 Update on schedule of planned oyster restoration activities (Jennifer German, Gulf Coast Work Force Board)
- 3:00 Next steps, timeframe, products from the Oyster Recovery Team
- 3:15 Open discussion of SMARRT and the Oyster Recovery Team
- 4:00 Q/A with the audience. ADJOURN NO LATER THAN 4:30 pm.
